DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1933.

[NOTE.—**On an average of the five years ending 1930-31, the area under jute in Bengal, to which this forecast relates, represents some 86·3 per cent. of the total area under jute in British India.**]

The Preliminary Forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from Panchayets and Agricultural Officers.

Revision of area for 1932.—In 1932 the forecasted area was 1,633,200 acres. This has since been revised to 1,845,700 acres.

Area sown in 1933.—In Bengal, returns for the present season shew a total area of 2,168,700 acres, an increase of about 323,000 acres, or 17·5 per cent. as compared with the revised figures for 1932.

Character of the season.—Rainfall in February facilitated preparatory tillage and early sowing in certain low-land tracts of East Bengal. In March and early April there was drought and sowings were delayed. Later good rain fell and sowings progressed freely in East and North Bengal. Wet weather in the end of May and in the early part of June made weeding somewhat difficult in some low-land tracts. In West Bengal the weather was generally favourable.

Present state of the crop.—The present state may be regarded as favourable, on the whole.

Stock.—Stocks of fibre from last year's crop are reported to be small.

Director of Agriculture, Bengal.

APPENDIX I.

Preliminary forecast of the jute crop of Bengal, 1933.

District.	Estimated area under jute.		Whether much, little or no jute remains in the district from the crop of 1932.	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
	Last year.*	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
24-Parganas ..	46,400	61,000	Some ..	End of April. Normal.	Low price of paddy and favourable condition induced cultivators to increase the area in spite of restriction propaganda. The present condition of the crop is good.
Nadia ..	27,600	36,000	Little ..	Middle of April. Early.	The increase is due to rise in price at the time of sowing. The growth of the crop has been retarded in Sadar and Ranaghat subdivisions owing to bad weather but condition of crop in other subdivisions is fair.
Murshidabad ..	14,600	21,000	Little ..	Beginning of May. Normal.	Increase due to rise in price about sowing time. Condition of the crop is fair.
Jessore ..	48,700	70,000	Some ..	End of April and beginning of May. Normal.	The increase in area is due to the fact that its cultivation is more remunerative than that of autumn paddy. Present condition of the crop is not satisfactory owing to heavy showers and insect damage.
Khulna ..	22,600	31,000	Little ..	Middle of April. Normal.	Increase is due to rise in price of jute at the time of sowing. The weather was favourable at the outset but subsequently there has been heavy rainfall causing a little damage in certain thanas. The present condition is satisfactory on the whole.
Burdwan ..	2,100	3,000	Little ..	Middle of May. Normal.	The increase in area is due to recent rise in price of jute. Present condition of the crop is fair.
Midnapore ..	5,500	5,000	Little ..	End of May. Late.	Slight decrease in area is due to low price of the crop and to the restriction propaganda. Want of rain was felt at sowing time but weather has since become favourable. Present condition of the crop is fair.
Hooghly ..	19,100	34,000	Very little ..	First week of May. Early.	The acreage figure has been revised on basis of settlement records. Present condition of the crop is good and weather favourable.
Howrah ..	4,100	4,000	Little ..	End of April. Normal.	There has been slight damage by occasional excessive rainfall. Present condition of the crop is fair.
Rajshahi ..	63,000	91,000	Little ..	March and April. Normal.	Increase in area is due to the fact that it is more profitable to grow jute than paddy. The weather is favourable and condition of the crop is good.
Dinajpur ..	50,000	59,000	Little ..	Middle of April. Early.	Increase in area is due to favourable weather during the sowing season also to slight rise of price. Slight damage was done by hailstorm in some places but the present condition of the crop is on the whole good.
Jalpaiguri ..	27,600	32,000	Little ..	Latter part of April. Little late.	Increase in area is due to favourable weather at the time of sowing also to the expectation of better price of jute. There was drought at the beginning but the weather has since become favourable. Present condition of the crop is fair.
Darjeeling ..	2,300	2,000	Little ..	April. Normal	Slight decrease is due to low price of jute last year and to restriction of cultivation. Present condition of the crop is normal.
Rangpur ..	218,000	252,000	Little ..	March. Normal	There has been a substantial increase in area in comparison with last year. Weather was somewhat unfavourable during sowing time but subsequently conditions changed for the better. Present condition of the crop is fair.
Bogra ..	70,000	85,000	Very little ..	March to May. Rather late.	Increase due to a little rise in price during sowing time. Weather in March and beginning of April was not favourable but it turned favourable afterwards. There has been some damage by insect. The present condition is fair.
Pabna ..	65,000	80,000	Little ..	March in Serajganj and April in Sadar. Normal.	Favourable sowing season, considerable increase in the price of jute and expectation of a better market account for increase in area. Present condition of the crop is good on the whole.

*Revised.

District.	Estimated area under jute.		Whether much, little or no jute remains in the district from the crop of 1932.	Date by which the sowing of the crop generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
	Last year.*	This year.			
1	2	3	4	5	6
	Acres.	Acres.			
Malda ..	19,400	30,000	Little ..	Middle of April. Normal.	Rise in the price of jute at sowing time accounts for the increase in area. The weather is favourable and the present condition of the crop is good.
Dacca ..	254,800	265,000	Very little ..	End of March. Late.	Increase in area is due to rise of price at sowing time. Prolonged drought caused delay in sowing but subsequently on account of favourable weather the crop is in good condition.
Mymensingh ..	474,500	566,000	Very little ..	Last week of March. Normal.	Increase due to (*i*) rise in the price of jute, (*ii*) abnormal low price of paddy. The weather was favourable at sowing time. In some part continuous rainfall retarded the growth of the crop. The present condition of the crop is, on the whole, good.
Faridpur ..	147,500	150,000	None ..	Third week of April. Late.	The growth of low land jute is not good on account of unfavourable weather conditions. High land jute is on the whole fair.
Bakarganj ..	23,900	32,000	Little ..	End of March. Late.	The increase in area is due to tendency of rise in the price of jute and the abnormally low price of paddy. The weather was not very favourable at sowing for want of rain and as such most of the crop was sown a little late. The weather was favourable afterwards and the growth is fair.
Chittagong ..	300	300	None ..	Middle of May. Normal.	The weather was favourable and the present condition is fair.
Tippera ..	179,000	183,000	Very little ..	April. Late ..	Increase in area is due to increase in price at sowing time. There was scarcity of rain at sowing time but the weather was favourable afterwards. The present condition is good.
Noakhali ..	35,400	50,000	Very little ..	April. Normal	Increase in area is due to low price of paddy and rise in the price of jute. The present condition of the crop is fair.
Total for Bengal	1,821,400	2,142,300			
Cooch-Behar ..	23,100	25,000	Little ..	April to Middle of May.	Increase is due to an expectation of better price. The weather was favourable and the present condition of the crop is good.
Tripura State ..	1,200	1,400	Little ..	Last part of April. Late.	Increase is due to the increase in the number of growers and a slight rise in prices. The weather at sowing time was not unfavourable. The present condition of the crop is fair.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1933.

[NOTE.—**On an average of the five years ending 1930-31, the area under jute in Bihar and Orissa, to which this Forecast relates, represents about 7·3 per cent. of the total area under jute in British India.**]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Year.	Acreage.	
1929	238,000	
1930	238,000	
1931	148,000	
1932	170,000	(Revised).
1933	190,300	

3. **Weather conditions.**—In March light rain fell in the Santal Parganas, Cuttack, Balasore and in parts of all the jute-growing districts except Darbhanga where there was no rain. The fall was below normal everywhere. In April light to moderate rain fell in all the jute districts. The fall was above normal everywhere except Cuttack. In May rain fell in all the jute districts. The fall was moderate and above normal everywhere except Purnea where it was slightly below normal. In June rain fell in all the jute districts. The fall was light to moderate everywhere. The weather conditions are reported to be favourable in the important district of Purnea and also in other districts. Sowings are still going on in the Santal Parganas, Cuttack and Balasore.

4. **District returns.**—Last year's area under jute has been finally estimated at 170,000 acres. The total area under jute this year is estimated by District Officers in round number at 186,300 acres. This estimate appears to be low and in my opinion the area will not be less than 190,300 acres. The increase in comparison with last year is due to the possible expected rise in jute prices this year.

5. **Condition and prospects.**—The condition of the crop is fair.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1932 is reported to be small except in Bhagalpur where large stocks are reported to be still in hand.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1933.

[NOTE.—**On the average of the five years ending 1930-31, the area under jute in Assam represents 5·2 per cent. of the total area under jute in British India.**]

1. **Season.**—The weather has been generally favourable for the cultivation and the growth of the crop. Some damage by hailstorms and insects in Goalpara and by insects in Darrang and Nowgong districts have been reported. The present condition of the crop is generally fair, and a better outturn than that of last year is expected in all the jute-growing districts.

2. **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 120,800 acres against 127,400 acres (revised) of last year. There is an increase in area in Cachar, Sylhet, Kamrup, Sibsagar and Garo Hills, while Goalpara, Nowgong and Lakhimpur show decrease in area, the net decrease over last year's final figure being 6,600 acres.

3. **Stock.**—According to the reports of the Deputy Commissioners little jute remains in stock from last year's crop.

	Acres.	Acres.	Acres.	Acres.	Acres.			
Cachar ..	200	200	300	100	..	None ..	First week of April. Early.	Increase is due to favourable weather during sowing time. The present condition of the crop is good and the outturn is expected to be better than that of the last year.
Sylhet ..	15,000	9,100	9,600	500	..	Little ..	Middle of April. Normal.	The increase in area is due to extension of cultivation in expectation of higher price than in the last year. The weather has been favourable up till now. The present condition of the crop is fair and the outturn is expected to be a little better than that of last year.
Goalpara ..	60,000	37 200	35,000	..	2,200	A small quantity remains owing to very low price.	Early and middle of April. Normal.	The decrease in area in comparison with the final is due to the low price of jute. The weather has been favourable up till now and the outturn is expected to be better than that of last year. Insects and hailstorms damaged the crop to some extent in some places of Goalpara subdivision.
Kamrup ..	28,000	21,400	21,800	400	..	A very little quantity.	Early April. Normal.	The favourable weather conditions at sowing time and improvement of price lately account for the increase in area. The weather has been fair up to now. The present condition of the crop is good and a better outturn than that of last year is expected.
Darrang ..	12,600	12,200	12,200	..	..	Little ..	Beginning of April. Normal.	The weather has been favourable up to now since the beginning of the season. Some damage has been done to the crop by insects. The present condition of the crop is fair and the outturn is expected to be normal.
Nowgong ..	50,000	42,200	36,200	..	6,000	Little ..	First week of March. Early.	The decrease as compared with the actual of last year is due to ordinary fluctuation. The indigenous cultivators are not taking up much cultivation due to low price. The weather was not quite favourable at sowing time but it has since improved. Slight damage was done to the crop by insects in places. The present condition of the crop is fair and the outturn is expected to be better than that of last year.
Sibsagar ..	400	200	300	100	..	None ..	Middle of April. Normal.	The weather continues favourable since the beginning of the season. The present condition of the crop is fair and the outturn is expected to be better than that of last year.
Lakhimpur ..	1,000	800	500	..	300	None ..	First week of April. Normal.	The decrease in area is due to the fall in the price of jute. The weather has been favourable all along up to now. The present condition of the crop is fair and the outturn is expected to be better than that of last year.
Garo Hills (plains)	5,000	4,100	4,900	800	..	None ..	Last part of March. Normal.	The increase in area is due to favourable weather which continues up to now. The present condition of the crop is good and a better outturn than last year is expected.

CALCUTTA, THE 10TH JULY 1933.

RESOLUTION—No. 1409 MIS.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

When the Dacca Museum was established in 1913, it was anticipated that it might be found possible subsequently to connect it in some way with the Dacca University. The closer relationship, however, which was then contemplated, between the University and the Museum, has not been realised, and the Government of Bengal (Ministry of Education) consider that the desirability of effecting such association should now be examined and the whole position of the Museum reviewed. For this purpose they have decided to appoint a Committee to advise them generally in the matter, and particularly as to the adequacy of the present arrangements, and to make recommendations for the future organisation and development of the Museum and its relation with the University.

2. The Director-General of Archæology in India has agreed to the appointment of Mr. K. N. Dikshit, Superintendent of Archæological Survey, Eastern Circle, as President of the Committee, which will include two representatives each of the Dacca Museum, the Dacca University and Government and will be constituted as follows:—

(1) Mr. K. N. Dikshit, Superintendent, Archæological Survey, Eastern Circle—President.

Government representatives.

(2) Mr. J. M. Bottomley, Director of Public Instruction, Bengal.

(3) Khan Bahadur Maulvi Muhammad Musa, Principal, Islamic Intermediate College, Dacca.

Representatives of the Dacca Museum.

(4) Nawabzada Khan Bahadur K. M. Afzal.

(5) Rai Satyendra Nath Bhadra, Bahadur, Principal, Jagannath Intermediate College, Dacca.

Representatives of the Dacca University.

(6) Mr. G. H. Langley, Vice-Chancellor, Dacca University.

(7) Professor R. C. Majumdar, Head of the Department of History, Dacca University.

Mr. N. K. Bhattasali, Curator, Dacca Museum, will act as Secretary, but will not be a member of the Committee.

3. The Committee will hold its sittings in Dacca only on dates to be fixed by the Secretary in consultation with the President.

ORDER—Ordered that the resolution be published in the *Calcutta Gazette* and that copies be forwarded to the President of the Committee, the Director of Public Instruction, Bengal, the Vice-Chancellor, Dacca University, and the Commissioner of the Dacca Division for information.

By order of the Govt. of Bengal
(Ministry of Education),

CALCUTTA, THE 12TH JULY 1933.

RESOLUTION—No. 459REGN.

Minister-in-charge: The Hon'ble Mr. K. Nazim-ud-Din, C.I.E.

Read—

Paragraph 67 of the Report of the Bengal Retrenchment Committee, 1932.

The Retrenchment Committee, which reported in 1923, recommended that registration fees should be doubled. In resolution No. 1225Mis., dated the 23rd May 1925, the Government of Bengal announced that, while accepting this recommendation in other respects, they had decided not to enhance the rate of registration fees in cases where the value of the property did not exceed Rs. 250. This exception was made so that the poorer classes might not be affected.

2. The Bengal Retrenchment Committee of 1932 have now recommended an increase of 50 per cent. in the fees leviable on these documents, as they do not consider that such an increase will cause any hardship. The Government of Bengal (Ministry of Education) have given careful consideration to this proposal. They agree with the Committee that such a measure should not cause undue hardship; at the same time it will help to reduce the amount of deficit in the provincial revenues and ultimately make more money available for constructive work. They have, therefore, decided to accept the recommendation of Retrenchment Committee and to raise the *ad valorem* fees by 50 per cent. in cases where the value of the property does not exceed Rs. 250. This increase will take effect from the 1st August 1933.

3. The Retrenchment Committee also recommended the abolition of about 100 offices; although a final conclusion has not yet been reached in regard to the number of offices which can be closed, the enquiries so far made indicate that it will not be possible to effect a reduction of the magnitude recommended by the Committee.

Order—Ordered that a copy of the resolution be communicated to the Inspector-General of Registration, Bengal, for information and for communication to District Registrars.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Govt. of Bengal
(Ministry of Education),

H. R. WILKINSON,
Secy. to the Govt. of Bengal.

Short title.

1. This license may be cited as "The Panihati, Khardah and Titagarh Electric License, 1933."

Interpretation.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder meanings are assigned shall have in this license the same respective meanings, provided that in this license:—

(*a*) "The Act" shall mean the Indian Electricity Act, 1910, and any statutory modifications thereof.

(*b*) The expression "the licensees" shall mean and include, the said Calcutta Electric Supply Corporation, Limited, and their permitted assigns.

(*c*) The expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with the Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Commerce Department and by the Agent of the licensees.

(*d*) The term "unit" shall mean the quantity of energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour.

(*e*) Unless otherwise stated, where roads are stated as the boundary of any area in this license the premises, properties or structures abutting upon either side of such roads are deemed to be within the area referred to. Where any boundary is stated to be a railway the area shall be deemed to include such part of the said railway as lies along the boundary referred to.

(*f*) The term "large consumer" shall mean a consumer who shall agree to take from the licensees and pay for a minimum consumption of 500,000 units of energy per annum.

(*g*) The term "small consumer" shall mean a consumer who shall not so agree.

1907 (as amended in 1931), and referred to therein as the second area.

On the West—By the river Hooghly.

The area of supply specified above is shown coloured red on the deposited map.

Situation of generating station.

4. The generating station from which the supply will be taken is situated outside the area of supply but transformer station or transformer stations will be constructed within the area of supply.

Purpose of supply.

5. Subject to the provisions of this license and the Act and the rules thereunder, the licensees shall be entitled during the continuance of this license to supply energy within the area of supply for all purposes to—

(*a*) Large consumers.

(*b*) Small consumers.

By way of exception to section 22 of the Act, it is hereby expressly declared:—

The licensees shall not, without the previous sanction of the Local Government in writing, engage in any business other than that specially authorised by this license and other licenses held by them under the Act or essentially necessary to permit the licensees to carry out the obligations imposed by this license, the Indian Electricity Act, 1910, and the Indian Electricity Rules, 1922.

The licensees shall not be under any obligation to supply energy to any small consumer until the Local Government shall decide that the local demand in any sub-area as undermentioned is sufficient to warrant the licensees' obligation to supply to small consumers in that sub-area and shall give notice in writing of such decision to the licensees whereupon the licensees shall be under obligation to commence supply to small consumers in that sub-area.

The area of supply specified in clause 3 above shall be deemed to be divided into such sub-areas as may from time to time be ordered by the Local Government or approved by the Local Government on the application of the licensees, and each such sub-area shall for the purposes of section 22 of the Act be deemed to be the "area of supply" referred to in that section, and the provisions of section 23 of the Act regarding undue preference shall apply as if each sub-area were covered by a separate license. Any sub-area may be formed as aforesaid either before or after any requests for supply have been received from intending small consumers. The rates, terms and conditions upon which small consumers may demand supply in each sub-area may at the discretion of the licensees differ from those in other sub-areas but shall be uniform in each sub-area. In deciding the rates, terms and conditions to be applied to each sub-area consideration shall be given to the cost of the licensees' works, proximity of the consumers' load to one of the transformer stations and to any other matters which may be considered relevant, but in no case shall the maximum rates set out in this license be exceeded.

Conditions of supply and rates to be charged.

6. Within six months from the date of the formation of a sub-area or sub-areas referred to in clause 5 hereof, the licensees shall submit to the Local Government a statement of terms and conditions which they propose to make to regulate their relations with persons who are or who intend to become consumers within such sub-area or sub-areas.

Nature of supply.

7. The supply to be given under this license shall be alternating current at a frequency of 50 complete cycles per second.

(*a*) For domestic and general purposes other than manufacturing, a medium pressure three phase four wire supply at a pressure of 400 volts between phases and a low pressure of 230 volts between each phase and neutral.

(*b*) For manufacturing purposes, up to and including 50 kilowatts connected load by a medium pressure three phase supply at a pressure of 400 volts between phases.

(*c*) For manufacturing purposes, over 50 kilowatts by a three phase supply at a pressure of 20,000 volts or 6,000 volts between phases.

The pressure stated above shall be as measured at consumers' terminals and shall be uniform, within the limits prescribed by the Indian Electricity Rules, 1922, throughout the area of supply.

Provided that the licensees may from time to time, with the previous consent in writing of the Government of Bengal and subject to such limitations and conditions as shall be prescribed in writing by the Government, adopt any other system of supply for the purpose of this license.

Limits of rates to be charged in respect of the supply of energy.

8. The rates to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

At the following rates per month:—

(*a*) *For lighting purposes*—For any quantity up to 6 units, Rs. 6 only, and for each unit over 6 units, annas 8 only.

(*b*) *For purposes other than lighting*—Annas 4 only per unit.

(*c*) In the case of a method of charge approved by the Government in accordance with section 23, sub-sections (*3*) and (*4*) of the Act, the maximum rates shall be such as the Government of Bengal may fix on approving the matter.

Purchase of undertaking.

9. (*a*) The option of purchase given by section 7 of the Act shall be exercisable on the 20th day of October 1958, and at the end of every subsequent period of ten years during the subsistence of this license. The percentage of the value to be determined in accordance with and for the purposes of section 7 of the Act of the lands, buildings, works, materials and plant of the licensees therein mentioned to be added under the said section to such value on account of compulsory purchase, shall be 20 per cent.

(*b*) In accordance with section 3, sub-section (*2*), clause (*d*) (*ii*) of the Act, it is hereby declared that all the works within the area of supply described in clause 3 of this license shall, and that the generating station referred in clause 4 of this license to be used in connection with the undertaking shall not, form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act.

(*c*) After notice shall have been given as prescribed in section 7, sub-section (*4*) of the Act, all extensions and outlays of money debitable to the capital account of the licensees during the last two years of the period of such notice shall be subject to the previous approval of the Local Government.

Exceptions and variations from the schedule to the Act.

10. In pursuance of clause (*f*) of sub-section (*2*) of section 3 of the Act it is hereby expressly declared that—

(*a*) Clauses I and IV of the schedule to the Act shall be excepted from incorporation in this license.

(*b*) Clauses V, VI, VII, VIII and XII of the schedule to the Act shall be deemed to be excepted until the Local Government shall order or decide that the local demand for electrical energy is sufficient to warrant the observance thereof in any sub-area as provided in clause 5 and shall give notice in writing of such decision to the licensees whereupon such clauses V, VI, VII, VIII and XII of the schedule to the Act shall apply in respect of that sub-area.

(*c*) The following sub-clause shall be substituted for clause X, sub-clause (*2*), namely:—

"Within six months from the date of this license, the licensees shall give notice by public advertisement, in such a manner as shall be previously approved by the Local Government, of the method by which they propose to charge for energy supplied to consumers and the rates at which such energy will be supplied. Where the licensees have given such notice they shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by public advertisement in the manner aforesaid and giving not less than one month's notice in writing or such shorter notice as the Local Government may deem proper of any such change to the Local Government and the local authority concerned and every consumer of energy who is supplied by them."

Securing continuity of supply.

11. If it shall come to the knowledge of the licensees (which expression shall for the purpose of this clause and clause 12 immediately following be taken to mean and include the licensees, their employees, servants and agents and their permitted assigns) that any civil commotion or disturbance of the public peace or any strike or lockout of the nature specified in section 15 of the Trade Disputes Act, 1929, likely to result in the interruption of supply of energy from the power station or to consumers has commenced or is presently apprehended by the licensees, then the licensees or some one on their behalf shall give the District Magistrate or to a Magistrate near the licensees' power station immediate and full information with regard thereto.

12. If the licensees shall in the opinion of the Local Government have failed to give such immediate and full information as is required in clause 11 hereof or if at any time any interruption of the supply shall occur which in the opinion of the Local Government is attributable to any wilful or preventable default or neglect on the part of the licensees or if the licensees shall in the opinion of the Local Government fail to comply with any of the provisions of any of the clauses of this license or if the general direction and control of the licensees shall cease to be in the hands of British subjects, the license may be revoked.

HIGH COURT NOTICES.

Original Side.

Calcutta, the 13th July 1933.

It is ordered that with effect from 15th August 1933 the amendments and additions hereinafter set forth be made and included in Chapter XXI of the Rules and Orders of the High Court, 1914 (3rd Edition, 1930):—

I. That rule 9 be amended by substituting the following for the present rule:—

Rule 9. **Establishment charges of Court Receiver.**—The Official Receiver shall, normally, not be allowed to make any charge on account of establishment, but if the Official Receiver is of opinion that it is necessary in the interests of an estate that he should engage durwans, sircars, or other servants he shall be at liberty to do so, but in that event he shall within seven days of any such engagement give notice to the attorneys for the parties, or to the parties themselves if appearing in person, that such engagements have been made. The notice shall contain the names of each and every servant so engaged and the purpose, and the terms, of his or their engagement. The Official Receiver shall with such notice include notice of a meeting to be held at his office (not later than 14 days from the date of the notice) when the question of the engagement of the servant or servants will be discussed.

II. That the following rules be numbered 9A, 9B, 9C and 9D and added after the said rule 9, Chapter XXI:—

Rule 9A. **Meeting between Official Receiver and parties.**—If at the meeting convened in accordance with the last mentioned rule it shall be decided that the employment of such servant or servants is unnecessary, the Official Receiver shall forthwith dispense with the services of the servant or servants so engaged. In the event of there being any disagreement between the Official Receiver and the parties, or should any party object to the engagement of the said servant or servants or any of them, and the Official Receiver should still be of the opinion that the retention of the servant or servants is necessary in the interests of the estate, the Official Receiver shall forthwith make an application to the Court on notice to the parties for permission to employ such servant or servants.

Rule 9B. **Hearing of application.**—At the hearing of the said application the Court shall determine whether the engagement of such servant or servants is necessary, and should the Court be of the opinion that the objection to the same has been made on insufficient grounds, the Court may direct that the party so objecting shall bear the costs of the application.

Rule 9C. **Official Receiver to submit statement to Court.**—In the event of no objection being made to the employment of the servant or servants so engaged as aforesaid, the Official Receiver shall prepare a statement for submission to the Court setting out the particulars mentioned in rule 9, and such statement shall be submitted through the Registrar to the Senior Judge on the Original Side for his confirmation of the engagement of the servant or servants.

Rule 9D. **Official Receiver to pay wages out of estate unless Court otherwise directs.**—The Official Receiver shall be entitled to pay out of the estate the wages and other expenses of and incidental to the engagement of the servant or servants, and also the costs of any application which may be made to the Court, unless the Court is of the opinion that the engagement of such servant or servants has been unreasonable, in which case the Court may direct that the Official Receiver shall personally bear such costs as have been incurred, and the wages of the servant or servants engaged by him.

III. That rule 10 be amended by substituting the following for the present rule:—

Rule 10. **Receivers to file and pass accounts.**—Every order appointing a Receiver (which shall be deemed to include the Official

Receiver) shall, unless otherwise ordered, contain a direction that the Receiver do file and submit for passing half-yearly accounts in the office of the Registrar. Such accounts shall be made out as at the end of the months of June and December in every year, and shall be filed during the months of July and January, respectively. In the event of it appearing to the Court that annual accounts would be sufficient, the Court may direct that the Receiver shall file annual accounts only which shall be made up to the 31st day of December in every year and be filed in the succeeding month of January.

IV. That the following rule be numbered 10A and added after the said rule 10, Chapter XXI:—

Rule 10A. **Commission chargeable on mufassal estates.**—In the event of the Official Receiver being appointed the Receiver of any zemindary or other property in the mufassal, the Official Receiver shall be responsible only to the extent of the sum or sums of money actually received by him. The Official Receiver shall only be entitled to charge his commission on the sum or sums so received by him.

It is ordered that with effect from 15th August 1933 rule 18 of Chapter XXXVI of the Rules and Orders of the High Court, 1914 (3rd Edition, 1930), be amended by adding the following words at the end of the said rule:—

Rule 18. "In the event of such bill being withdrawn before it is examined, and taxed, a refund certificate on application shall be granted."

It is ordered that with effect from 15th August 1933 the amendments and additions hereinafter set forth be made and included in the Rules and Orders of the High Court, 1914 (3rd Edition, 1930):—

Draft of an agreement between the Government of Bengal and the Kurseong Hydro-Electric Supply Company, Limited, regarding the use of the water of the Rinchingtong river near Kurseong for the purpose of generating electricity.

THIS INDENTURE made the day of , 1933, between the Secretary of State for India in Council (hereinafter called the Local Government) of the one part and the Kurseong Hydro-Electric Supply Company, Limited, having an address at Kurseong in the district of Darjeeling (hereinafter called the grantees) of the other part.

WHEREAS the grantees are desirous of carrying out a scheme for generating electrical energy by means of utilising the water of the Rinchingtong river near Kurseong in the district of Darjeeling by constructing a weir at the point marked "R" on the Rinchingtong river (as shown on the plan* annexed), from which point the water will be led into a reservoir and thence be discharged through pipes into a generating station which reservoir and generating station will be situated at or near the sites shown on the said plan, and have applied to the Government of Bengal (hereinafter called the Local Government) for a grant for water power development in the area aforesaid.

AND WHEREAS the Local Government with a view to encourage commercial enterprise and the development of the resources of the country by means of electrical power has determined that such a grant as is asked for by the grantees may properly be granted.

It is hereby agreed and declared as follows:—

I. Throughout these presents the expression "grantees" wherever it occurs means the grantees specified in the preamble hereof and includes where the context so permits or requires or after the transfer contemplated in Clause VII hereof their permitted assigns.

II. The grant hereinafter expressed to be made is subject to the rules prescribed by his Majesty's Secretary of State for India and published by the Government of India as Resolution No. 933 of the Department of Finance and Commerce, dated the twentieth day of February, 1894, as subsequently amended.

III. Subject as is hereinafter mentioned the grantees shall have the sole and exclusive right from the date of these presents to use the water power of the Rinchingtong river at the said point "R" for the purpose of generating electrical energy and for no other purpose.

PROVIDED ALWAYS that such grant shall not derogate from any existing rights of the proprietors or lessees of lands through or by which the said river or its tributaries may flow above the said point "R" or from the right of the Darjeeling-Himalayan Railway Company to use the water thereof but the Local Government shall not confer on any such proprietor or lessee any right not now existing to dam obstruct or otherwise divert the said river or any of its tributaries above the point "R" and below the Darjeeling-Himalayan Railway if such damming obstruction or diversion is likely to cause any appreciable diminution in the flow of water at the said point "R".

PROVIDED FURTHER that the Local Government shall not be liable for any loss damage or inconvenience which may happen to the grantees by reason of any deficiency in the water arising from utilisation or diversion of water for any purpose or cause whatsoever.

* A copy of the plan may be inspected at the office of the Superintending Engineer, South-Western Circle, Treasury Buildings, Calcutta, or at the office of the Deputy Commissioner, Darjeeling.

PROVIDED LASTLY that the Local Government reserves the right to grant to the Municipality of Kurseong to the Darjeeling Improvement Fund to the Darjeeling-Himalayan Railway Company or others of the right to take water for the purpose of water-supply or other approved purpose from any of the said streams at any place above the Darjeeling-Himalayan Railway and the decision whether such right shall be granted or not and if so on what terms and conditions shall rest with the local Government whose decision shall be final.

IV. The grantees shall be at liberty for the purpose of carrying into effect the abovementioned scheme to erect or construct weirs or dams at the point R and a reservoir and a power house at or near the sites shown on the plan together with such channels tunnels pipe-lines and other works in the vicinity as may be necessary for the purpose of the said scheme but the grantees shall not except with the sanction of the Local Government construct such works in a manner which will render the site incapable of full development at a later date if a partial development only is contemplated in the first instance.

PROVIDED ALWAYS that the erection and construction of all the works abovementioned both as regards number situation and design shall be subject to the inspection and approval of the Local Government and no works shall be commenced by the grantees without the permission of the said Local Government.

PROVIDED ALSO that this grant shall not confer on the grantees any right to use any land not belonging to them nor to erect any work thereon and that the grantees shall not use any Government land or erect any work on any Government land unless they shall first have been granted by the Local Government a license or a lease for the said land on such terms and conditions as regards payment of rent and otherwise as the Local Government may determine.

V. The grantees shall return all water utilised by them in the working of the said scheme to the Rinchingtong river without pollution or diminution except unavoidable loss from absorption or evaporation.

VI. The grantees shall pay to the grantor a royalty of one hundred rupees a year during the first five years from the date of this grant. On the expiry of the said period the amount of royalty payable by the grantees shall be determined by the Local Government from time to time on such basis at such rate for such periods and on such conditions as the Local Government think fit. The said annual royalty of Rs. 100 during the first 5 years and the royalty which may thereafter be fixed from time to time by the Local Government shall be recoverable from the grantees as a public demand.

IX. This grant may be determined by the Local Government in any of the following events :—

(*a*) In the event of the revocation in whole under the Indian Electricity Act 1910 or any statutory modification or re-enactment thereof of any license or licenses which may have been granted to the grantees thereunder in connection with this grant.

(*b*) In the event of the grantees making default which in the opinion of the Local Government (whose decision as expressed in writing by the Secretary to such Government shall be final and binding against the grantees) is wilful or unreasonably prolonged in the construction of the works hereinbefore contemplated and in the commencement of the generation of electrical energy.

(*c*) If at the end of three years from the
the grantees shall not have commenced to execute works for the utilisation of the water power referred to in clause IV hereof or if by the
or within any extended period beyond that date which the Local Government may be pleased to grant for the completion of the compulsory works under clause 6 of the Kurseong Electric License 1929 the grantees shall not have installed at the site of the works in complete working order plant including two water turbines capable of generating not less than 350 brake horse power each at the turbine shafts or if such plant shall not be maintained in good working order.

(*f*) In the event of the exercise of the option of purchase of the undertaking given by the Indian Electricity Act 1910 or any statutory modification or reenactment thereof.

X. In the event of the determination of this grant under any of the provisions hereinbefore contained such determination shall be without prejudice to any liabilities incurred by the grantees to the Local Government hereunder or any claim or demand by the Local Government in respect thereof all which shall remain unaffected and the grantees shall not have any right against the Local Government for any compensation or otherwise in respect of any expenditure made liabilities incurred or things done in respect or in consequence of or under this grant except compensation that can be properly paid to them under the provisions and conditions in that behalf contained in the said license or under the provisions of the Indian Electricity Act 1910 or any statutory modification or re-enactment thereof.

X (*a*). Any terms and provisions hereof which shall be found to be inconsistent with the provisions of the Indian Electricty Act or the provisions of the license thereunder held by the grantees shall be null and void.
